## Perske Watercooled Motors

Direct drive for special environmental condition applications.

### Motor Description:

- Asynchronous motor
- Water cooled
- Active bearing cooling
- Direct connection bearing cooling for wide temperature range (131° to 311° F)
- Temperature monitoring of bearings and winding
- Prepared for vibration sensor
- Hollow shaft
- Further customization possible

## Performance Guide: PERSKE Watercooled Motors

Type	Drawing	Weight kg	Power kW	Speed RPM
